Stocked Finishes

MATT BLACK

Matt Black is a bold finish that resembles a deep midnight tone and is applied with electroplating.

BRUSHED NICKEL

Nickel electroplating is made up of several layers of colour then brushed and finished with a gloss clearcoat to protect the finish.

COCOA BRONZE

A rich, dark finish with warm undertones that subtly blend deep brown and soft metallic hues. Its low-sheen surface offers a sense of understated luxury and sophisticated matte lustre.

GRAPHITE NICKEL

Graphite Nickel resembles tones similar to 'gunmetal' and offers a softer look than black whilst still adding texture and depth to a home.

MATT SATIN BRASS

An elegant brushed brass finish that emits a luminous glow through the added matt lacquer.
